

# PRD – Artistic Personal Portfolio Website

## 1. Goal & Vision

Create a unique, artistic personal portfolio website that feels handcrafted and professional — avoiding generic templates. The site should highlight skills, projects, and personality while using creative layouts, bold typography, and immersive animations. The portfolio must stand out visually (Awwwards-level design) and serve as both a personal brand and a showcase of technical/creative ability.

## 2. Target Users

- Recruiters / Hiring Managers: Quickly view skills and projects with a strong impression.
- Clients / Collaborators: See style, professionalism, and creativity.
- Peers / Network: Explore artistic presentation and personal story.

## 3. Core Features

### A. Home / Landing

- Bold hero section with animated background.
- Large name & tagline.
- Smooth scroll cue.

### B. About Me

- Editorial-style typography with personal intro.
- Animated timeline for experience & education.

### C. Projects Showcase

- Asymmetrical grid layout.
- Hover animations on cards.
- Detail pages with storytelling format.

### D. Skills & Tools

- Interactive skill graph/icons.

### E. Contact Section

- Unique call-to-action design.
- Contact form + links.
- Artistic footer.

## 4. Design & Style Requirements

- Visual Identity: Artistic, modern, handcrafted look.
- Typography: Large bold headers + clean body text.
- Layout: Asymmetrical grids, overlapping sections.
- Color Palette: Unique, experimental.
- Animations: Parallax, hover effects, micro-interactions.
- Inspiration: Awwwards, Behance, Dribbble.

## 5. Technical Requirements

- Frontend: React + Tailwind + Framer Motion.
- Hosting: Vercel / Netlify.
- Performance: Optimized images, lazy-loading.

- Responsive design.
- Accessibility: Contrast, alt text, keyboard nav.

## **6. Success Criteria**

- Website visually stands out from templates.
- Smooth flow from intro → projects → contact.
- Easy access to skills and projects.
- Strong personal brand identity.
